

~ Miss Carly ~

Hello! To say dance is my passion is an understatement. I grew up in the dance world, starting at only three years old. Although it wasn't until I started dancing at Arlington School of Dance that I found my true love for the art. From Lyrical to Contemporary, to Jazz and Tap, I've done it all! I love building my relationships with my students and choreographing funky, sassy and fun dances that these kids will remember as they continue their dance journey, or look back at it. On another note, I love the color pink, being out in the sun and my favorite animal is a shark! They never stop moving.
